R8: (SC, DEC) X6	(12)
FO and leave tail for sewing	

Sew on the balls.
Attach at the bottom of the
body a few stitches apart

Smile

Start your smile under the corner of one eye and run it to the other eye.

Bring your yarn out a row or 2 down from the line of yarn. Bring your needle under the yarn to pull it down and give the smile shape.

insert needle in the same stitch to hold your smile in place.

You can go over 1 stitch and repeat the process for the desired shape.

When you have the desired shape pull the yarn through the plushie to where the original yarn was put in, tie off, and hide tails.

Congrats your all done!
